PROFESSIONAL SUMMARY

Final-year B.Tech (AI & ML) student with hands-on experience building full-stack and AI-integrated applications, including responsible use of generative AI to improve product outcomes. Combines strong programming fundamentals (Python, Java, SQL) with system-design thinking, clear technical communication, and a track record of shipping real, working software under real constraints.

EDUCATION

SRM Institute of Science and Technology, Trichy	2027
<i>B.Tech · Computer Science and Engineering (Artificial Intelligence and Machine Learning)</i>	<i>CGPA- 8.81/10</i>
Best Matriculation Higher Secondary School, Thanjavur	2023
<i>Class XII · Tamil Nadu State Board</i>	<i>Percentage- 76.67%</i>
Best Matriculation Higher Secondary School, Thanjavur	2021
<i>Class X · Tamil Nadu State Board</i>	

EXPERIENCE

Backend Development Intern	2026
<i>Sparkout Tech Solutions, Coimbatore</i>	
- Designed RESTful APIs in Node.js/Express.js, weighing endpoint trade-offs for scalable architecture. - Architected MongoDB schemas and CRUD workflows with senior engineers, improving data consistency. - Followed structured code review and Git-based release practices, reducing integration issues.	

PROJECTS

Voice Biomarker for Early Parkinson's Detection <i>Python, Machine Learning, Scikit-learn</i>	2025
- Developed a machine learning model to assist in the early detection of Parkinson's disease using voice biomarkers. - Performed audio preprocessing and feature extraction from speech recordings for predictive analysis. - Trained and evaluated classification models to improve diagnostic accuracy. - Applied feature engineering and model evaluation techniques to improve prediction performance.	
AI Interview Coach <i>React, Node.js, MongoDB, Grok API</i>	2026
- Designed and shipped an AI-powered mock interview platform that generates role-specific interview questions by sending resume and job-role context to the Grok API. - Structured prompts to return targeted, role-relevant questions rather than generic ones, based on parsed resume content. - Built RESTful APIs (Express.js, MongoDB) with a React frontend, connecting user input, AI-generated output, and result display into one working flow. - Implemented secure user authentication and resume upload to support the end-to-end interview experience.	

TECHNICAL SKILLS

Languages: C, Java, Python
Frameworks: React, Node.js, FastAPI
Databases: MongoDB, MySQL
Core CS: DSA, DBMS, OOP, Operating Systems, Computer Network
Developer Tools: Git, GitHub, VS Code
